

# 305 HTS

## ENJOYMENT PERSONIFIED

The sporty and compact frame is quick to reveal its purpose as the perfect all-around day cruiser. Take advantage of its performance or simply spectate the scenery with the semi-open cockpit area. The hardtop will help protect from the elements and offer respite when needed, without noticeably limiting the surrounding views.

The lightweight construction, due to its low profile, offers amazing handling in all conditions when paired with a wide array of available petrol and diesel engines.

Come on board to find an open deck layout with an aft sun pad that doubles as storage and a settee complete with table and rest area. Guests will find the wet bar with a grill and fridge handy when serving refreshments while on the go. Above the

helm station a manual sunroof can be quickly moved back to allow better ventilation. Two side decks lead to the bow leisure area divided by a series of skylights. A practical, elongated stern platform is available as an option providing an extra 80 cm for activities or to fit a compact dinghy.

Down below, the yacht offers accommodation for four, complete with a galley and a bathroom. The midship cabin serves as the owner's while the seating space near the bow can be transformed into an additional double berth. Guest will appreciate the separate shower cabin in the bathroom that helps to keep things dry and tidy.

The 305 HTS is a great companion for day excursions while providing enough capacity to comfortably sleep four.

The 305 can be had in the hardtop sport variant for extra practicality. With the added roof the cockpit area becomes more protected without compromising the experience. Enjoy the performance and the handling of this lively model all year long.

— Tight handling and sporty performance of the 305 HTS

— The quick and nimble 305 HTS is a driver's boat

— The aft sun pad holds extra storage

A large skylight divides the bow sundeck area —

Quickly open the sunroof or a side window to let the fresh air in —
