

370 HTC

AN ADVENTUROUS COMPANION

This model leaves no doubt about its sporty heritage thanks to the sleek lines and edgy exterior features. While similar to, in function, to the flybridge model, the HTC sets itself apart thanks to its large sunroof and glass panel over the main living area. This allows the driver to completely open up the yacht as the roof, starboard and aft doors can be moved out of the way for better access and ventilation.

The main feature of the cockpit area is the L-shaped modular sofa that can be folded flat and act as a sun pad for the passengers facing aft. The bow sundecks are best suited for stationary use but the addition of a seat with back support allows the more adventurous to sit right next to the bow while cruising for a thrilling ride.

Inside the main living area, a large dining table sitting six can

be found opposite a well-appointed kitchen area with enough storage for a weekend getaway. The helm station is surrounded by windows for perfect visibility with a bonus sliding doors for quick mooring maneuvers. Several interior finishes are available with great customization options.

Down below the hardtop keeps the incredible three cabin layout with six berths between the cabins. Two double and one twin with bunk beds are well fitted to accommodate guests and their belongings. Standing height is secured in all the crucial places while the separation of head and shower from the rest of the bathroom helps to keep the important things dry.

The 370 HTC checks all the boxes in the looks department and offers a well thought out, functional interior.

The hardtop version of the 360 FLY brings even more performance and flair while keeping all the clever interior features of its sibling. A dynamic silhouette and a large glass roof are instant eye-catchers.

370 HTC
