

# 640 FLY

## THE GAME CHANGER

Building on the ground-breaking success of the 500 series, the 640 went the extra step in terms of innovative approach to layout and space distribution on deck. An impossible combination of sleek lines and interior volume was achieved by obsessively improving on every detail and focusing on creating a new design path that will put the passengers in the center of attention.

Up top, passengers are met with a proper bar, double front-facing seating and sundeck area with a large U-shaped sofa. Protection from the sun is provided by a large carbon bimini with a retractable soft panel roof. Head down to the cockpit to find one of the most spacious entertainment areas on any single hull design in this segment.

The Beach Mode wows with the balconies extending the width to 7,4 meters and allowing to serve refreshments to both bars. The U-shaped cockpit settee can be shaded by a canvas for extra privacy and for watching movies on the TV hidden in the kitchen top. The aft is occupied by the hydraulic bath platform with favorable entry to the skipper cabin.

The bow area, which is usually inconvenient to access during cruising, becomes a centerpiece thanks to the 640's incredible front entrance. The middle part of the windshield retracts revealing the transformable sundeck and seating space forward.

The main deck offers independent access to the master cabin and a distinct separation between the kitchen and the entertainment space forward. The dining area will seat plenty and is sure to be the center of attention thanks to a large pop-up TV hidden away on the opposite side.

Down below, find three different layouts, with the standard being three master cabins - all with private bathrooms. Choose the super master option with the cabin midship and smaller twin guest quarters if you require more space or select the charter option with four cabins down below for two extra berths - perfect for large families or entertaining guests overnight.

The 640 FLY is truly a one-of-kind model with its innovative use of onboard space, clever design features and a bespoke, highly customizable interior.

The 640 has to be one of the most spectacular yachts in recent memory with features and solutions never before seen outside custom designs. This transforming model leads where others follow, revolutionizing the segment.

# 640 FLY

Select this version for extra space on the top deck that will rival the best in class

The carbon construction of the top deck and bimini allows for better weight distribution

Incredible space on all three decks

# 640 FLY

A carbon bimini protects the flybridge from the elements
