| Power & Performance  | Convenience                                       |
|--|---|
| 362cc 2 cylinders  | 10 Amp alternator (exc. TH)                       |
| SOHC   | PrimeStart  |
| Long-span mounting system                                      | Built-in carrying handles & resting pads          |
| Acceleration pump  | Available in different variants                   |
|  | Dual transom pads                                 |
|  | Built-in start-in-gear & shift-in-gear prevention |
|  | Steering friction lever (TH)                      |
| Reliability & Durability                                       | Control & Steering                                |
| Water-cooled fuel pump   | Mechanical steering                               |
| Stainless steel drive shaft, prop & shift shaft, steering tube | Available with tiller Handle                      |
| YDC-30 & sacrificial anodes                                    | Retrofit electric start available                 |
| Magnetic drain plug  |   |
| External freshwater flush attachment                           |   |
| Water-sealed exhaust   |   |

| SALES ARGUMENTS & USPS  | THINGS TO CONSIDER  |
|---|---|
| <ul style="list-style-type: none"><li>+ High-end design</li><li>+ Highest displacement and torque</li><li>+ Easy to start even for manual start</li><li>+ Quiet</li><li>+ Amongst the most fuel efficient in its class</li><li>+ Versatile</li><li>+ Best in-class for corrosion protection</li><li>+ Made in Japan</li></ul> | <ul style="list-style-type: none"><li>- No EFI</li><li>- Heavier than average</li></ul> |
