

SMALL POWER 2.5HP TO 25HP

F20G/ F25G

Power & Performance

432CC 2 cylinders

SOHC

Battery-less EFI

Wide-span mounting System

Lightweight

Single throttle valve

Convenience

16 Amp Alternator

Auto-decompression device

Power trim & tilt

External tilt switch

Variable trolling RPM switch

Vibration reduction mounting

Keyless Y-COP compatible

Available in different variants

Reliability & Durability

Spin on oil filter

Water draining air intake duct

YDC-30 & sacrificial anodes

Magnetic drain plug

Control & Steering

Mechanical steering

Available with tiller handle

Retrofit electric start available

SALES ARGUMENTS & USPS

- + EFI
- + Available in many options (TH, M or E) & dual thrust propeller
- + Compatible with Yamaha premium rigging
- + Made in Japan
- + Best power to weight ratio (25hp)
- + Highest displacement on the market (20hp)
- + Amongst the most fuel efficient in its class
- + Most powerful alternator (16A) Battery-less capability
- + Equal performance to outgoing 25N 2-strokes

THINGS TO CONSIDER

- 20hp is heavier than competition
- Vibration level at idle in some cases
