

PREMIUM POWER 225HP+

F350 NSA (SBW)

Power & Performance

4.3L V6 24v / DOHC
Plasma-Fused sleeveless cylinders
Variable camshaft timing
Large intake for improved airflow
Exhaust fan
Larger throttle body vs V6
Available in counter-rotation

Convenience

Optional Prop Light (HM EX)
76 Amp high output alternator
TotalTilt
TERE
SDS compatible
Vibration reduction mounting system
Keyless EKS compatible

Reliability & Durability

Electronic single throttle valve
YDC-30 & sacrificial anodes
Water separator
Dual water intake gearcase
Electro-deposited powerhead paint process
Iridium spark plugs
Reinforced lower unit
Improved cooling system

Control & Steering

SBW
Integrated electric steering
Compatible with Helm Master EX A/P Level 4
Compatible with Bow Thruster Integration

SALES ARGUMENTS & USPS

- + Powerful alternator
- + Easy maintenance
- + TotalTilt
- + Unique pearl white colour option
- + Made in Japan
- + Incredible power, high performance engine
- + Best Power to weight ratio on the market
- + Fully redesigned V6 with different internal configuration
- + 20% more efficient than previous F350 V8
- + Industry-first integrated electric steering system
- + Unparalleled steering system, even with competition "ad-hoc" solutions
- + Compatible with Auto-Pilot Level 4 (Joystick)
- + TERE for easy power delivery both in forward and reverse
- + Pricing when adding comparable product with add-ons and rigging

THINGS TO CONSIDER

- Noise
- Different applications than previous F350 V8
- Lack of range of propellers
